Verification & Refurbishment

Any item, Any Category

We guaranty the payout*

* Some restriction Apply

What included

Software

“Your company” offer a complete system in order for your store to offer a professional buy-back program. We can customize the solution to your needs in relation product offering pricing and availability. Our software handle all aspects of the operations from the moment that a consumer decides to sell his/het item.

Product & Pricing

We can add any product category in our buy-back system, group by categories, families and single products. Each item has a base price that is the initial offer price. Depending on product condition, and operational status the final offer is determined.

Logistics & Refurbishing

We offer complete logistics by order to our facility for the refurbishment. Our staff & technicians log every move of the order and certify that the offer product meets the condition, and operational status described. If not, the price is automatically adjusted.

Re-Sale

At this point you have a choice to make 1) Resell the refurbishing items on your store or 2) we sell for you in the open market. Either choice is sell funded minus our cost and processing fee.

All this is FREE of Charge!!

Increasing Awareness

With our reward solution you get a chance to motivate and give incentive to consumers to visit your store more often

Competitive Advantage

Since all customers will be paid with store vouchers, they will need to spend their earning in store purchasers. Thus, you drive extra sales & additional profits

Be first

With our solution you can be a pioneer in your industry because you will develop recycling programs which you will put you first in the market.

No Cost

Our solution is offer FREE of charge* and includes all the scheduled upgrades & fixes. Also includes hosting in share servers.

No risk

All buy back prices are guaranty by our company

Customer Service

Customer services is PAID service that can support your customers if needed.

Why Free;

Our company is following the strategy of micro-payments. We are making a small percentage from the items that customers sell to us.
